SKILLS

Languages:	C++, Java, Python, C, JavaScript, PHP
Frameworks:	HTML, CSS, NodeJS, React, Tailwind CSS
Tools/Platforms:	MongoDB, MySQL
Soft Skills:	Quick Learner, Problem Solving, Adaptability, Stress management

PROJECTS

Car Rental | [GitHub](#)

Nov 25– Dec 25

- Developed a **car rental management system** enabling users to browse available vehicles, view details, and make bookings through an interactive UI.
 - Implemented **OTP-based user verification** using server-side logic to validate users during authentication and sensitive actions.
 - Implemented **PHP-based backend logic** to manage cars, bookings, and availability, ensuring accurate rental status and consistent data handling.
- Tech:** HTML, Tailwind CSS, JavaScript, MySQL, PHP

Mediqueue | [GitHub](#)

Jun 25 – Jul 25

- Developed a **hospital queue management system** using PHP and MySQL to digitally manage patient flow and reduce waiting time through structured backend logic
 - Implemented a **priority queue-based scheduling mechanism** to handle patient order efficiently, ensuring critical cases are prioritized appropriately in the queue.
 - Designed a **responsive and user-friendly interface** using HTML, Tailwind CSS, and JavaScript to display real-time queue status and appointment details clearly.
- Tech:** HTML, CSS, JavaScript, MySQL, PHP

My Personal Portfolio | [GitHub](#) | [LIVE](#)

Nov 24 – Dec 24

- Developed a **full-stack personal portfolio application** with a dynamic frontend and RESTful backend, enabling real-time project display and contact form submissions.
 - Implemented **MongoDB Atlas integration** to store and retrieve project data and contact messages. securely, ensuring scalability and reliable data persistence.
 - Designed a **responsive, modern UI/UX** with dark/light theme persistence, reusable React components
- Tech:** HTML, Tailwind CSS, React JS, Node JS, MongoDB

TRAINING

Centre of Professional Enhancement | LPU | [LINK](#)

Jun 25 – Jul 25

Fundamentals of Data Structures: Learn, Apply and Build Projects

- Implemented core data structures and algorithms in **C++**, improving coding efficiency and problem-solving skills.
- Solved algorithmic challenges, optimizing solutions for time and space complexity, strengthening practical coding and logical reasoning capabilities.

CERTIFICATES

Computational Theory: Language Principle & Finite Automata Theory Tools - Infosys SpringBoard LINK	Aug 25
Fundamentals of Network Communications – Coursera LINK	Sep 24
Hackathon - Code-a-Haunt LINK	Mar 24
Responsive Web Design - Free Code Camp LINK	Nov 23

EDUCATION

Lovely Professional University

Bachelor of Technology
Computer Science and Engineering; CGPA: 7.01

Phagwara, Punjab
Aug 23 – Present

St John Secondary School

Intermediate
PCM; Percentage: 78%

Dumraon, Bihar
Apr19 – May 21

Cambridge School

Matriculation
Percentage: 84%

Dumraon, Bihar
Apr 18 – May 19
